No prior experience required • Mentored real-world projects • Portfolio-focused learning • Experience certification

WHAT IS BRITICANA?

Not Just a Course. Not Just an Internship. A Real Experience Platform.

Briticana is a project-driven experience platform designed for students, freshers, and aspiring professionals who want practical exposure before entering the workforce.

Instead of spending months only learning theory, participants at Briticana work on structured startup-style projects in collaborative teams, guided by mentors and industry-focused workflows.

At Briticana, you will:

- Work on real business challenges
- Collaborate with teams
- Learn through execution

- Build practical skills
- Create portfolio-ready projects
- Gain confidence through real experience

Our goal is simple:

Help students become industry-ready through hands-on project experience.

WHY STUDENTS TRUST BRITICANA

Real Work. Real Learning. Real Growth.

At Briticana, we focus on execution-based learning.

Every participant becomes part of a structured project environment where tasks, reviews, collaboration, and deliverables follow a professional workflow similar to real startups and modern companies.

What Makes Briticana Different?

- Structured internship-style experience
- Guided mentorship and review sessions
- Team collaboration model
- Real-world project execution
- Transparent learning process
- Performance-based evaluation
- Experience certificate with project proof

We do not believe in passive learning.

We believe skills are built through doing.

HOW BRITICANA WORKS

A Simple Yet Powerful Learning Journey

Step 1 — Apply & Get Assessed

Submit your application and tell us about your interests, goals, and current skill level.

Our team evaluates your profile and matches you with the most suitable project domain and learning path.

Step 2 — Join a Project Team

You become part of a small collaborative team working on startup-style projects.

Each team operates with structured goals, timelines, and mentor guidance.

Step 3 — Learn While Building

Participants go through a practical execution process:

- Self-learning
- Team discussions
- Weekly reviews
- Task execution
- Real deliverables
- Mentor feedback

This creates an environment similar to real company workflows.

Step 4 — Project Submission & Evaluation

At the completion stage, participants submit:

- Final project files
- Documentation
- Project explanation videos
- Self-introduction presentation

Every submission is reviewed by mentors based on:

- Contribution
- Communication
- Problem-solving
- Execution quality

Step 5 — Certification & Portfolio

Successful participants receive:

- Briticana Experience Certificate
- Portfolio-ready project experience
- Mentor evaluation
- Career guidance support

OUR INTERNSHIP EXPERIENCE MODEL

The Briticana Intershop Process Model

Briticana follows a practical “Intershop Process Model” designed to simulate how modern startup teams operate.

Phase 1 — Orientation

- Understanding the project
- Team onboarding
- Workflow introduction
- Goal setting

Phase 2 — Research & Learning

- Self-learning tasks
- Industry understanding
- Tool familiarization
- Market or technical research

Phase 3 — Team Execution

- Weekly sprint tasks
- Team collaboration
- Problem solving
- Project development

Phase 4 — Review & Mentorship

- Mentor feedback
- Performance reviews
- Quality improvement
- Communication assessments

Phase 5 — Final Delivery

Participants submit:

- Project completion files
- 3 mandatory video presentations:
 - What did you learn?
 - What problem did the project solve?
 - Self-introduction & experience sharing

Phase 6 — Certification & Career Readiness

- Experience certification
- Portfolio enhancement
- LinkedIn-ready project proof

- Career readiness guidance

This structured process helps students experience real professional workflows before entering the industry.

FOR STARTUPS & FOUNDERS

Build With Mentored Talent Teams

Briticana also supports startups and founders by helping them explore early-stage ideas through supervised project teams.

Startups can submit:

- Product ideas
- MVP concepts
- Research tasks
- Marketing projects
- Design requirements

Our mentored teams help:

- Explore solutions
- Test concepts
- Build structured outcomes
- Support innovation at lower operational cost

All projects are supervised and designed for educational and execution value.

CERTIFICATION

Earn Experience You Can Actually Show
